Strategic Plan

Disability Commissioner Tasmania

Vision

Lutruwita/Tasmania is a place where people with disability are safe, belong, and thrive.

Pillars

Belonging and Inclusion

We advance belonging and inclusion of Tasmanians with disability through:

- Keeping all of our work informed by and connected to the experiences of Tasmanians with disability
- Advocating for accessible, inclusive systems
- Community engagement and awareness raising
- Regulation of government Disability Inclusion Action Plans
- Creating opportunities to amplify the experiences and perspectives of the Tasmanian disability community.

Safeguarding

We protect the safety of Tasmanians with disability by:

- Responding to potential and actual harm through investigations and authorised visits
- Partnering with local and federal statutory authorities for connected service delivery
- Maintaining a no wrong door approach
- Making recommendations to parliament and speaking up when systems create harm
- Linking our work to national disability strategy through research and policy development to make sure Lutruwita/Tasmania is represented.

Regulation

We are a proactive and responsive regulator. This means we:

- Always act with independence and fairness
- Use evidence to influence and make system change
- Respond to emerging issues and themes across the state
- Set clear expectations about our role and requirements
- Act decisively to prevent harm.

Your Voice. Your Rights. Our Purpose.
